What We Do

Salesforce Ecosystem at Caelius Consulting

Salesforce Technologies

Transforming Business to the future landscapes

With a deep understanding of industry-specific needs, Caelius specialises in delivering tailored solutions for industries like manufacturing, fintech, education, healthcare, and retail. By leveraging Salesforce's powerful platform, Caelius Consulting is able to transform how businesses operate, interact with customers, and achieve growth.

Sales Cloud

Improving sales productivity, forecasting, and pipeline management.

Service Cloud

Unifying customer interactions, enabling self-service, and empowering service teams with AI-driven insights.

Manufacturing Cloud

Support manufacturers in aligning their sales and operations, driving predictability, and managing forecasts.

Health Cloud

For healthcare providers, we implement Health Cloud solutions that personalize patient experiences, streamline case management, and enhance patient-provider communication.

Marketing Cloud

We help clients build customer journeys that personalize marketing across channels.

Cross-Cloud Capabilities and Integration Expertise

A unified 360° view of customer and operational data for smarter, agile decision-making.

Technology Stacks

Salesforce Clouds & Products
